

Adrienne Damicis

Columbus, OH • damicis.1@buckeyemail.osu.edu

EDUCATION

Ohio State University

Ph.D., Geography

Advisor: Sandy Wong

Columbus, OH

Expected May 2029

Ohio State University College of Public Health

M.S., Biostatistics

Thesis: *A Spatial Risk Map of Malaria in Four African Countries*

Columbus, OH

May 2019

Previous Institution

B.S., Biology / Medical Anthropology

Honors: Honors in biology, *cum laude*

Cleveland, OH

May 2017

PRESENTATIONS

Conference Presentations

Damicis A. “Bringing the healthy places index to Utah: Leveraging small-area life expectancy estimates to localize a powerful tool.” (2024). APHA Annual Meeting, Minneapolis, MN.

Damicis A. “The Healthy Places Index: Operationalizing a Race and Place Framework to Advance Health Equity.” (2024). NACCHO360, Virtual.

Posters

Damicis A, Heng YJ,, Kensler K, Asad S, Adams E, Singh J, Zhang Y, Nock W, Wesolowski R, Williams N, Reinbolt R, Sardesai S, VanDeusen J, Noonan A, Lustberg MB, Ramaswamy B, Eliassen H, Hankinson SE, Tamimi R, and Stover D. CD8+ T-cell gene expression and signatures in breast cancer and adjacent normal breast tissue: Association with body mass index,

alcohol intake, and age at diagnosis. (2018) San Antonio Breast Cancer Symposium, San Antonio.

Other Presentations

“GIS in Public Health.” (2026). Guest Speaker. OSU Geography Club. Columbus, OH

“The Healthy Places Index: Mapping to Advance Health Equity.” (2023). Guest Speaker. University of California Riverside Geospatial Meetup. Virtual

AWARDS & FELLOWSHIPS

University Fellow, Ohio State University. (\$32,000)	2025
Graduate Access Fellow, Ohio State University. (\$32,000 per year for 2 years)	2025
University Fellow, Ohio State University. (\$19,000)	2017

TEACHING EXPERIENCE

Graduate Teaching Assistant

Ohio State University, Department of Biostatistics	2018 – 2019
Biostatistics for Public Health Research (PUBHBIO 2210): Undergraduate only.	

PROFESSIONAL EXPERIENCE

The Public Health Alliance	Remote Work
<i>HPI Data Advisor</i>	August 2025 – Present
• Supports data production, research, and documentation for the Healthy Places Index (HPI), a place-based health equity and mapping tool that quantifies community conditions at the neighborhood level • Contributes GIS, biostatistics, and data visualization expertise to the HPI and related research initiatives	
<i>HPI Operations and Analytics Unit Manager</i>	February 2024 – August 2025
• Managed data infrastructure, including databases, files and codebases for the HPI, delegating tasks and supervising team members, coordinating with contractors, and tracking deliverables • Served as lead author of the Utah and California HPI Technical Reports, detailing methods and data sources of the HPI composite health equity index, and summarizing analyses to contextualize and validate HPI score	
<i>Geospatial Data Lead</i>	January 2023 – February 2024
• Identified, researched, and applied best practices to answer analytical questions related to the HPI score and spatial data, resulting in significant improvements in data accuracy when aggregating data on the HPI map • Developed and executed geospatial training program focused on GIS skills in R	
<i>Data Analyst</i>	January 2022 – January 2023

- Supported the ongoing work of the HPI by producing hundreds of HPI indicators from a variety of local, state, and national sources
- Collaborated on design of population health research project to investigate the relationship between community conditions at the neighborhood level, race/ethnicity, and mortality in California

Ohio Department of Health, Bureau of Maternal, Child & Family Health Columbus, OH
Epidemiology Investigator 3 January 2020 – December 2021

- Utilized a variety of large data sources to generate novel and impactful data analyses to evaluate Ohio WIC clinics, identify Ohio sub-populations in need of services, and analyze trends in maternal and infant health metrics
- Developed data reports, briefs and oral presentations for internal WIC staff and external stakeholders, including the “Ohio WIC Potential Eligibility Report,” which used census data to calculate estimates of the WIC-eligible population in Ohio by demographic categories and displayed trends in yearly WIC coverage rates
- Collaborated with data management and IT teams to validate data, create automated data dashboards, and improve data quality

Epidemiology Investigator 2 May 2019 – January 2020

- Collaborated with Asthma Program team members to evaluate and inform asthma-related public health programs and to design program evaluation action plans

LEADERSHIP & SERVICE

Academic/Professional Service

Committee Member, California Health Information Survey (CHIS):
 Disability Working Group 2026

Community Service

Volunteer, Gathering Strength 2025 – Present

- Assists in the development of advocacy materials and data briefs to promote disability housing justice in Louisville, Kentucky

Volunteer, Camp No Limits 2013 – Present

- Volunteers as a peer mentor for fellow amputees and kids with limb differences – leads support groups, facilitates social and educational activities, and assists with planning and evaluation of camp programming

PROFESSIONAL AFFILIATIONS

American Association of Geographers (AAG) 2025 - Present
 American Public Health Association (APHA) 2024 – 2025
